RE: MAYFAIR VILLAGE APARTMENTS

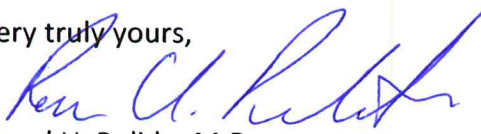

Dear Ms. James:

In February 2016 I wrote for your assistance regarding dumpster, garbage, and debris issues at your location. It's a pleasure to follow up that letter with my thanks and gratitude for your quick and positive response. Your area is greatly improved. That is deeply appreciated by your neighbors in the nearby Millers Creek Special District.

As I indicated in February, our district was created by the City of Jacksonville, Ordinance No. 2014-700-E, in February 2015. Our goal is to revitalize the beauty, health, and environment of the natural waterway Millers Creek and the wildlife therein. The cleanup task involves not only the dredging and removal of silt but also the removal of waste and debris in the creek and surrounding areas.

Again, thank you to Ability Housing of Northeast Florida for being a good neighbor and a good steward of the natural beauty of our area.

Very truly yours,

Rene' U. Pulido, M.D.

Chairman
Millers Creek Special District
